Professional Summary

Skilled Uber Driver dedicated to providing exceptional customer service to all customers. Versed in keeping vehicle clean and serviced. Adept at providing top-notch care to passengers and belongings. Earned an EMT license in 2013 and worked in a fast paced med surge environment for 2.5 years. I realized this path was not for me and took a job as a delivery driver at papa johns and started driving Uber. I have been with uber now for 3 years, in the last year I became very interested in coding, hacking, A.I., machine learning, engineering. I decided to start learning code and now I'm hooked, currently I am learning Python3, HTML5, and CSS, and I am pursuing an entry level position in the IT industry.
